Windows Media & Media Feature Pack (PowerShell)

# Install Windows Media Player

```
$MFP = DISM /Online /Get-Capabilities | findstr "MediaFeaturePack";$MFPack = $MFP.split(":")[1].replace(" ", "");DISM /Online /Add-Capability /CapabilityName:$MFPack /NoRestart
```

# Check Windows Media Player

```
Get-WindowsCapability -online | Where-Object -Property name -like "*WindowsMediaPlayer*"
```

# Install Media Feature Pack

```
$WMP = DISM /Online /Get-Capabilities | findstr "WindowsMediaPlayer";$WMPPkg = $WMP.split(":")[1].replace(" ", "");DISM /Online /Add-Capability /CapabilityName:$WMPPkg /NoRestart
```

# Check Media Feature Pack

```
Get-WindowsCapability -online | Where-Object -Property name -like "*MediaFeaturePack*"
```

# Install Additional Features

**IMPORTANT:**
*All Eight of the following Microsoft Store Apps need to be Installed, as they contain necessary Audio & Video Codecs, that are Required by the "Windows Media Player" Software and other Applications that utilize the Audio, Video and Camera Features.*

**VP9 Video Extensions:**

```
winget install --name "VP9 Video Extensions" --source msstore --accept-source-agreements --accept-package-agreements
```

**Web Media Extensions:**

```
winget install --name "Web Media Extensions" --source msstore --accept-source-agreements --accept-package-agreements
```

**HEIF Image Extensions:**

```
winget install --name "HEIF Image Extensions" --source msstore --accept-source-agreements --accept-package-agreements
```

**Skype:**

```
winget install Skype --source msstore --accept-source-agreements --accept-package-agreements
```

**Movies & TV:**

```
winget install --name "Movies & TV" --source msstore --accept-source-agreements --accept-package-agreements
```

**Windows Media Player:**

```
winget install --name "Windows Media Player" --source msstore --accept-source-agreements --accept-package-agreements
```

**Xbox Game Bar:**

```
winget install --name "Xbox Game Bar" --source msstore --accept-source-agreements --accept-package-agreements
```

**Windows Voice Recorder:**

```
winget install --name "Windows Sound Recorder" --source msstore --accept-source-agreements --accept-package-agreements
```

**IMPORTANT**:

*After Installing the "**Windows Media Player**", "**Media Feature Pack**" and All Eight of the " **Additional Features** " (Microsoft Store Apps), the Computer will need to be Restarted in order to Complete the Last Step of the Installation Process.*
